

BEST PRACTICES 2016-17

Best Practices of the institution

1. Best Practices in water conservation

The whole world is experiencing scarcity of water now days. The availability of clean water is a big problem now. We need to make efforts for clean water globally. We the concerned teachers and students of G.D.M. Girls PG College are making all out efforts to save water and preserve environment by spreading awareness of importance of saving water among masses. How and what Teachers and students of G.D.M. Girls PG College with their special skills and knowledge like Acting, Singing, Drawing & Painting and nukkad natak are making people aware of the importance of saving and consuming water by conduct of services, lectures, workshops, demonstrations, poster, essay and quiz competitions on saving water and importance of conserving water. We also conduct awareness rallies, nukkad natak etc on water conservation and importance of saving water. In all above awareness activities our NCC Cadets, NSS rangers, members of Red Ribbon Club, students of IGNOU study center, students union office leaders and NGOs actively participate and made their valuable contributions.

2. Best practices in employability skills for the students:

- | | |
|--|----------|
